Participant Application

The South Carolina Specialty Crop Growers Association is pleased to announce the Value-Added Packaging Cost Share Program. Through funding from the USDA Specialty Crop Block Grant, farmers can receive reimbursement up to \$1,800 per year, or \$1350 for nonmembers, per farm for packaging costs. An additional \$200 may be requested for the use of value-added packaging, consisting primarily of sustainable materials that are reusable, recyclable, or compostable. This additional reimbursement will be provided at the discretion of the SC Specialty Crop Growers Association and the SCDA.

Packaging is an essential part of marketing and selling specialty crops and can be an expensive input for farmers, especially in the early stages of their business. This program is designed to help alleviate some of the financial burden that comes with farming and encourage growers to expand their market outlets. Reimbursements are available on a first come first serve basis until funds are depleted.

The following is required for reimbursement:

- Must be a South Carolina farmer and grow specialty crops.
 The USDA defines specialty crops as "fruits and vegetables, tree nuts, dried fruits, horticulture, and nursery crops (including floriculture)."
- 2. Provide copies of primary source receipts for packaging costs.
- 3. Sign an affidavit with SCDA to ensure packaging will be used solely for the use of specialty crops.
- Provide data, information, statistics, and/or testimonials after
 months of participation in program.
